

The Original
Gold  **Filter**SM

- Precisely engineered to improve an engine's performance, efficiency, and longevity
- NAPA Gold Air Filters block dirt and harmful contaminants from entering the vehicles engine at 99% efficiency
- High performance filter media offers twice the dirt holding capacity of a standard air filter
- Cleaner air flowing into the engine results in less wear and tear on critical engine components
- Improved air flow allows the engine to operate more efficiently, potentially leading to better fuel economy
